

Favor International

Favor Primary

FAVOR PRIMARY started back to class in January after almost 2 years of lockdown due to COVID19. Most children had no means of education during this time and we thank God they are back in school. Our school is stronger than ever with 435 registered students.

This year we started our very own FAVOR SECONDARY which is currently being run for the G.I.F.T. (God's Institute for Transformation) Youth. We had 33 students first term with approx. 50-60 more joining in April.

Trauma Healing

The Vice-President of South Sudan welcomes Favor's Trauma Healing to the nation.

Our teams are standing before government officials, generals, the military and even the I.O. (government rebel groups) bringing reconciliation and forgiveness through the blood of Jesus. Often both of these groups are in the same room as The Prince of Peace brings healing to the nation! This is an answer to many years of praying!

G.I.F.T.

God's Institute for Transformation

The highlight this quarter was a SPEAKLIFE basketball camp for our youth. They learned principles of God's Word, how each of them are coaches and called to make a difference. The 2 week camp ended with a very exciting water baptism. All of our youth from the December 1st intake were water baptized.

What a celebration in the heavens!
